

10/648,886

REMARKS

Applicant previously filed a Preliminary Amendment to Accompany RCE Filing and Response to November 22, 2005 Final Office Action on February 22, 2006. In the previous Response, some text is missing from the first full paragraph of page 6. The phrase "being coplanar with the first plane defined by the first series conductive lines" should instead read "being coplanar with the first plane defined by the top of the insulative oxide material on and in contact with the first series conductive lines." The revision is consistent with the express language of claim 56 and with Applicant's further assertions in the paragraph that follows the revised paragraph. Applicant requests that the Office consider the revised paragraph along with the previous Response.

Respectfully submitted,
